Observe Holiday Saturday, May 24

This Saturday, May 24, is a public holiday and stores and other business places will be closed. Shoppers are reminded to stock up for the long weekend.

As in past years, Vulcan and Champion will co-operate on the holiday situation, with Champion celebrating the May 24 holiday with a big baseball tournament and Vulcan holding the July 1 celebration.

With The District Agriculturist

Hugh Michael

How Do You Conserve Soil?

The following information taken from the May 8th issue of Seedtime and Harvest should be of interest to everyone who is genuinely concerned about maintaining the fertility of the soil. Southern Alberta farmers led the way in developing and using measures designed to control erosion by wind. During the past few years, erosion by water has become a very serious matter on many farms throughout the district. Gullying from water erosion can be observed on many fields. This form of water erosion, while readily seen is not as difficult to control as sheet erosion.

The following suggestions concerning the control of erosion as made by Dr. F. G. Greaney are practical and can be used to advantage.

Our greatest extravagance in Western Canada today is the needless waste of fertile farm land. Extravagance means living beyond one's means and we have been doing exactly that with our prairie topsoil and surplus waters. Unless we mend our ways, this extravagance, which is reducing the productivity each year of millions of acres of our best farm land, will eventually render Western Canada one of the "have-not" countries of the world. The fact is we can, if we will, protect and conserve our soils.

Here are some of the things every farmer in Western Canada can do this year.

1. Use suitable, approved erosion-control practices to stop washing and blowing.
2. Stop excessive cultivation of land that washes or blows easily.
3. Hold the rain that falls on the land for the use of crops, grasses, trees, livestock, and for other purposes.
4. Use tillage, trash cover, and cropping practices that will protect the soil and retard run-off from rains and melting snows.
5. Use manure and fertilizer where needed, in the right amounts and at the right time.

Basic Minimum \$1,850 Per Year

Teachers, County Reach Agreement on Salaries

6. Plant trees, grasses, legumes on land too poor to grow crops profitably; also on areas too steep or shallow to plow.

7. Eliminate over-grazing when grass is thin and short by practicing controlled or rotational grazing.

8. Improve your native pastures and planted grasslands through better management.

9. Stop burning stubble. Instead, use the stubble to maintain a good trash cover during the summer-fallow year.

10. Plan and use a well-balanced cropping program, which includes grasses and legumes.

According to Dr. Hugh H. Bennett, the father of the soil conservation movement in the United States, these and other sound farming practices which protect the land and increase production, are the real tools of soil conservation. Through their continual use, prairie farmers can save the topsoil which the future security and prosperity of Western Canada depends on. Soil and water conservation can be effective and permanent. But in order to get the job done right, good land use and conservation measures must be practiced every year on every farm in Western Canada. Save your own soil and encourage your neighbors to practice soil conservation measures in 1952.

Great Development Seen

Many New Oil and Gas Discoveries This Year

During the first 4½ months of this year there were 54 indicated discoveries of crude oil and/or gas in Western Canada, a record rate averaging about one discovery every two days. Twenty of those wells found oil or oil encouragement, while 34 struck natural gas or wet gas flows.

Although all the new oil and gas finds so far this year may not prove to yield commercial volume, the fact still remains that the strikes are being made at a rate considerably higher than ever before recorded in the nations petroleum history. A number of the oil discovery wells have been placed on steady production, testing operations are being continued at others, while still other indicated

oil strikes have been abandoned after failing to yield commercially. All the gas discovery wells completed have either been abandoned or capped, awaiting an available market outlet for their product.

Alberta, the western province which is receiving the lion's share of exploratory activity accounted for over 70 per cent of the discoveries so far this year, 39 in all. Sixteen of those strikes were oil or indicated oil discoveries, all but two being on the central plains of the province. The remaining 23 strikes were gas finds, which makes the rate of natural gas discovery in Alberta during the initial 105 day period of 1952 greater

Husky-Phillips To Drill Again

The Husky-Phillips team are preparing a new drilling site south-east of Vulcan. The wildcat well will be drilled on the John Roebuck farm, three miles south and three miles east of Vulcan. This is in the same general area as the Husky-Phillips well drilled two years ago on the O. B. Roe farm. This first well failed to find oil in commercial quantities and was abandoned.

At the Shell-C & E well south-west of Vulcan drilling is continuing at about 7200 feet. It is understood that a second well is being planned for this area.

At the present time there are 53 teachers in the county and it is estimated that the total teachers' salaries for the ensuing year will amount to approximately \$180,000.00.

Present indications are that the teaching staff will be increased by the addition of six or seven teachers. This will be necessary to accommodate the extra rooms to take care of additional enrolment this year. Plans are being made to open four extra rooms in the local school at Vulcan.

than one new gas strike every five days.

It is anticipated that the discovery rate, for both oil and gas, will be further increased as operators intensify their exploratory program during the summer months. At the present time there are some 73 drilling rigs working at wildcats in Alberta, and additional rigs are being brought in, scheduled to drill at exploratory ventures in this province.

Among the areas that yielded oil discoveries or gave indication of new oil pools during the initial 4½ months of this year are: Bashaw-Spotted Lake, Beaverhill Lake, Bonnie Glen, Camrose two strikes, Duhamel, Hamelin Creek, Leduc-Calmar, Malmoe, Manawan Lake, Nevis, New Norway, Saddle Lake, South Stettler, Twinning-Three Hills, Vulcan-Nanton.

A sizeable boost in Alberta's gas reserves have been effected so far in 1952 by the province's 23 indicated gas discoveries, and by the numerous other wells that have been rated as extension successes to already discovered gas fields. If the province decides to export natural gas in greater volume than already specified, the gas discovery rate will climb considerably, as numerous of the gas strikes have been made only incidental to the search for oil. A further market outlet for gas reserves would add greater incentive to the petroleum explorers.

Takes T.B. Post

W. L. Allison, B.A., a recent graduate in Arts from the University of Alberta, whose appointment as Rehabilitation Counsellor has just been announced by T. A. Shandro, President of the Alberta Tuberculosis Association.

Mr. Allison commenced working for the Association as a handicraft instructor in 1948 while he was himself a patient at Central Alberta Sanatorium following wartime service with the Royal Canadian Corps of Signals. Becoming interested in the rehabilitation of the tuberculous, he decided to return to University to qualify himself for full-time work with the division. His headquarters will be at Central Alberta Sanatorium, Calgary.

Plant 550 Trees In 10 Minutes

An eye-opening demonstration of labor-saving advantages of a tree-planting machine was given at the Howard Burrell farm north of town last week when the government-owned machine, with two operators, planted 550 caraganas in exactly ten minutes.

Hugh Michaels, District agriculturist, was one of the two men who operated the machine at Mr. Burrell's farm and reported that, the previous day, the machine had planted 12,500 assorted trees on the Allan McLean farm at Champion, easily completing the job in one day.

Such a machine would seem to provide the answer to the labor involved in planting long shelter-belts.

The Canadian Mainland supplies more than two-thirds of Newfoundland land imports.

An Italian court has ruled it's no crime to keep your wife in chains. Over here it would be some job.

See Need For New Vulcan School

Problems Presented By Increased School Populat'n

Meetings of the school committee of the County of Vulcan No. 2 and the County council were held last week on Thursday and Friday. At the school committee meeting, the matter of teachers' salaries was discussed and it was noted that no settlement was reached with the teachers' bargaining agent, Mr. G. E. Callbeck, and the committee at a meeting held on May 8th. At that meeting the bargaining agent and teachers' committee failed to reach an agreement with the School Committee and the matter of salaries was taken back to the teachers.

Information was given to the school committee that the teachers had again rejected the offer and it appeared that a conciliator would be required with the result that the dispute would finally be referred to a board of arbitration. The opinion of the members of the school committee was that the delay would seriously hamper the engaging of sufficient staff to open schools on September 1st this year, and conceded an extra \$50.00 on the schedule offered to bring the minimum salary to \$1850.00 per year. This was accepted by the teachers verbally and a resolution was passed at the county school committee meeting agreeing to the new schedule. Information in respect to this is contained in another item in this issue.

Van Service

Members of the school committee were concerned over the rising costs of school van services, and discussed at some length the problems existing in conveyance of pupils. The vans which are operating in the county at the present time are costing more than was originally estimated this spring. The Committee's policy is to let contracts to individual operators on the basis of 17 cents per mile for a half ton van and 21 cents per mile for a ton van. Special rates are also in effect for the larger custom built vans. The committee decided to make a survey of van costs, with a view to ascertain if it would be possible to have the vans owned by the county. It was felt that some saving could be made if the van service could be properly organized and handled as a public utility.

A motion was passed authorizing the chairman of the school committee, Mr. McKay, and the Secretary Treasurer to attend the School Administration Refresher Course in Banff on June 3, 4 and 5th.

Town Agreement

It was moved by Mr. Matlock and carried that the County of Vulcan School Committee enter into a new agreement with the Town of Vulcan School District for a special requisition of \$5,000 per year from the Town of Vulcan.

Bursaries

It was moved by Mr. Matlock and carried that the Committee authorize bursaries in the sum of \$300 to be granted to high school pupils who wish to go to Normal school this year. The bursaries would be granted on the recommendation of the Superintendent and approved by the Board.

A motion was also passed adopting the policy to supply free certain pupil supplies on the basis of recommendations from the school principals and the Superintendent. The committee also passed a motion to make an agreement with the Taber School Division for tuition at the rate of \$3.00 per month per pupils attending schools in the county who live in the Taber school division and for pupils who live in the county attending the Taber schools. Transportation costs are to be paid at the rate of \$1.00 per day per pupil by the County and Taber school division.

Plan New Vulcan School

The committee spent considerable time going over the plans for the organization of the schools for the fall term and authorized a number of increases in staff as required. It was noted that there will be a large increase in the school population in Vulcan and that it is likely that four new rooms will be opened. This will present a problem to the committee in obtaining accommodation at the school. One solution was offered that two rooms could be made from the basement room in the new school and that the building presently being used for shop and home economics be converted into class rooms. If this were done Home Ec. and shop instruction

Only Seven Votes On Money By-law

Voting on the Town of Vulcan's By-law No. 272 to borrow the sum of \$14,800 under the Self Liquidating Projects Act for improvements and extensions to the waterworks system was held on Monday. In the lightest vote ever to be recorded in Vulcan, seven ratepayers cast their ballots—all in favor of the bylaw.

Approximately 360 property owners were entitled to vote. The heaviest vote ever recorded here on a town by-law was in 1947 when 206 out of 274 property owners voted on the water and sewer system project.

could not be offered the pupils in Vulcan this year. Arising from this discussion the matter of school accommodation in Vulcan was thoroughly discussed and it appeared to the committee a new school in Vulcan was necessary in the near future. The Committee passed a resolution recommending to the county council that a by-law be passed to authorize the building of a new High School in Vulcan. Tentative plans are that the new school would be eight rooms and an auditorium and would be a complete new unit, and the site of the new school would be in another location than the present school grounds. The Committee passed a resolution that a child must be six years old on or before Nov. 1st in order to commence school on Sept. 1st in any year. Authorization was given to the County teachers to hold a school sports day in Vulcan on May 23. The Board also decided not to declare June 9th a school holiday since June 13th was a provincial school holiday.

The school committee set up a sub-committee to inspect the various schools with a view to recommending necessary decorating and repairing to be done during the summer holidays. Authorization was also given to have a teacherage moved from Queenstown to Milo. Another committee was set up to study the van operations for the ensuing term and make recommendations and decide on various routes to be established.

County Council Meeting

The May County council meeting was held on Friday, May 16th with all members present. A motion was passed to hold the June meeting on June 20th owing to the fact that the regular day would be June 13th which is Farmers day and a Provincial Holiday. The council decided also to hold the court of Revision on June 20th at 2:00 o'clock in the afternoon.

It was moved by Mr. Dietz and carried that the contracts for the three schools at Carmangay, Champion and Milo be signed by the Chairman and Secretary-Treasurer and forwarded to the Department of Education for approval.

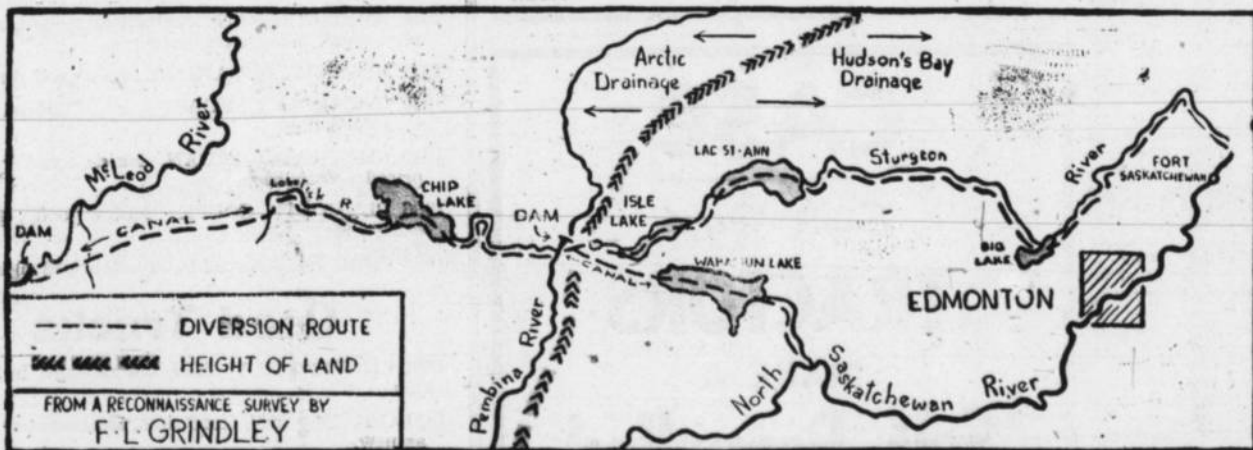

Mr. McKay, Chairman of the School Committee reported on school matters and it was noted that the school committee had recommended to the County Council that a by-law be passed to make application to the Board of Public Utilities Commission to borrow a sufficient amount of money to build a new High School at Vulcan. The County Council were unanimous in support of the proposed school and passed the necessary by-law. Instructions were given to make the application with as little delay as possible in order that plans may be drawn.

A by-law was also passed authorizing the purchase of a new Chevrolet half ton pickup truck for use by the Public Works Committee.

It was moved by Mr. Smith and carried that the County's propane tank be sold to Mr. S. Fox, Lomond, for the sum of \$350.00, which was the highest bid received. It was moved by Mr. Loose and carried that the County donate the sum of \$25.00 to the Canadian Forestry Association to assist in the work of Forest Conservation. The Council turned down an application to accept any responsibility for future maintenance on a drainage ditch project.

Newspapers selling for a penny apiece were originated in England in the 1830's.

Could Divert More Water Into N. Saskatchewan River

Water destined by nature to flow into the Arctic Ocean may some day find itself in the Hudson's Bay, if a plan drafted by the Water Resources Office of the Alberta Government is put into effect.

In a report entitled "Possible Diversion from the Arctic Watershed to the Saskatchewan (Hudson's Bay) Drainage Basin," a plan is presented whereby the McLeod, Pembina, Lobstick and Wolf Rivers would be diverted into the North Saskatchewan River.

To increase volume of water. Officials of the Water Resources Office are taking a long range view of the plan and would use such a scheme for increasing the volume of water rather than to provide water power.

Large quantities of water now are being diverted from the South

Saskatchewan drainage for irrigation purposes in southern Alberta, and as more dry areas are developed, a smaller supply of water will flow to Saskatchewan and Manitoba. Alberta officials foresee the day when the neighboring provinces could complain of water shortages, so the diversion plan is designed to compensate for water used in the south.

Other factors are the proposed scheme to divert water from the North Saskatchewan to the Red Deer River for irrigation in the Hanna area, and the increased water consumption by the growing city of Edmonton. In addition, sprinkler irrigation could be used in the Edmonton area and controlled water could be of use in sewage dilution.

Although not a factor in the present plan, the report admits

that power possibilities would exist in such a diversion scheme.

The area diverted to the Saskatchewan River would cover about 4,500 square miles where the annual runoff is approximately 2,250,000 acre feet. This would take about 1,000,000 acre feet of water from the Arctic drainage and divert it into the North Saskatchewan.

The first step would be to construct a dam on the McLeod River and divert water via a canal to the Lobstick River. The canal would cross Wolf River which also would be dammed and diverted. From the Lobstick the water would flow into Chip Lake to the Pembina River. A dam would divert the Pembina and a canal would carry the water across the

height of land between the two drainage areas.

Diversion Routes

The canal could be diverted either into Wabamun Lake and reach the North Saskatchewan River above Edmonton, or flow into Round Lake, Isle Lake, Lac Ste. Anne, and along the Sturgeon River through Big Lake to the Saskatchewan. This would release water below Edmonton near Fort Saskatchewan.

Geological reports indicate that most of the lakes in this area are remnants of one large lake, so that the basin between them would be ideal for water storage. The report states that while such a scheme would be expensive, it is quite feasible from an engineering viewpoint.

Drainage basins of the rivers are McLeod, 1,900 square miles; Pembina, 1,700 square miles; Lobstick, 500 square miles, and Wolf, 400

square miles. This makes a total of 4,500 square miles of drainage area.

The main stream of the Athabasca River, into which these rivers normally flow, would likely be unaffected by such a diversion and impounded water could be released during low water periods.

The Prairie Provinces Water Board is at present establishing allocations of water from the Saskatchewan River and soon a definite maximum will be placed on the amount of water Alberta may take from this drainage system. The diversion scheme remains as a possible source of water in the event that Alberta requires more than the allocation allows. However, the allocation is expected to be large enough that such a move would not be required for several years.

Idle Workers and Vacant Jobs

A friend inquires why able-bodied men should be drawing unemployment insurance benefits in the cities while farmers are unable to hire the help necessary to cultivate their fields.

The answer is that few city dwellers have any inclination to do farm work.

There are many reasons for this attitude, some as old as history, some as modern as unemployment insurance and the welfare state.

City dwellers have never looked favorably on farm work because such work doesn't offer them the things they want.

It doesn't offer the glittering prizes of salaries in five figures with which urban industry dazzles the eyes of youth.

It doesn't offer the short hours, the five-day week, the holidays with pay, the wages based on the worker's need regardless of the value of his work, or the variety of companionship and entertainment, or the unemployment insurance or retirement pensions that the city offers.

The farmer can't provide all

these things for his hired help. He has to get his living out of the land; and the land doesn't reward him according to his need, but only according to his work. He can't call on a government official to order the land to increase his reward simply because he needs more. He is dealing with nature and has to be realistic. He has to cut his coat to suit his cloth.

There was a time when unemployment in the cities would drive workers to the farms in search of unemployment, but unemployment insurance has put an end to that. Why should a man work on a farm when he can get 21 dollars a week unemployment insurance for doing nothing?

In our economy the cards seem to be stacked against the farm worker. But after 20 years of it, such a worker will probably have a farm of his own and be dependent on no man for his job, while his counterpart in the city will still be working under a boss, wondering how long he will be able to hold his job, and wishing he had been more careful of his earnings.

—Rural Scene

Use Machinery Safely---Live Longer

Every spring, during the rush season there are numerous deaths on farm machines due to carelessness. Are you trying to "break into the news" that way?

Look around you and see what chances you are taking with your life. Ragged or frayed clothing is dangerous near any rotating shaft; adjusting a trailing implement by standing on the hitch while the tractor is moving is a poor way of saving time; those turns in road gear where you use one of the wheel brakes to make it short may be a short cut to the morgue; taking your youngsters for a ride on

the tractor is one of the best ways to endanger their lives. The machine is made with only one seat, to carry only one person. A list such as this could be carried on and on. Snorking while handling fuel, parking a tractor on a hill, letting the clutch in with a jerk, working or travelling too close to a ditch bank, unplugging a jammed feeder on a combine or baler—but then you know the story, it's just a case of realizing that you may be next to get into one of these losing arguments with a killer machine. Don't be a news item—be careful with your farm machinery.

NOTICE TO CREDITORS

IN THE MATTER OF THE Estate of JOSEPH LINDSTEDT, late of the Village of Lomond in the Province of Alberta, Farmer, Deceased.

NOTICE IS HEREBY GIVEN that all persons having claims on the Estate of JOSEPH LINDSTEDT, who died on the 14th day of February, A.D., 1952, are required to file with the undersigned Solicitor for the Administrator of his Estate by the 2nd day of July, A.D. 1952, a full statement, duly verified, of their claims and of any securities held by them and that after that date the Administrator will distribute the assets of the deceased among the parties entitled thereto having regard only to the claims of which notice has been filed or brought to his knowledge.

DATED at Vulcan in the Province of Alberta, this 12th day of May, A.D., 1952.

SUMMERFALLOW EARLY

Crops are made mainly by rainfall. Summerfallow stores up rainfall. The earlier the summerfallow is done—preferably immediately after seeding—the more moisture is stored in the soil, hence the better the crop will be in 1953. Farmers, therefore, are well advised to summerfallow early.

SEARLE GRAIN COMPANY, LTD.

OATMEAL IS STILL THE BEST GRAIN FOR CHICKS!

Oatmeal is more digestible than other grains... develops stronger, healthier bones. Oatmeal, too, is the best grain source of Thiamin (Vitamin B1) which chicks need for growth and health. We recommend Ful-O-Pep Chick Starter because it is built around nutritious oatmeal. Ful-O-Pep also contains A.P.P. and other essential vitamins, including sunshine and green grass vitamins.

*"... saved me days,
perhaps weeks, of work"*

After returning from his first trip to the West, a business man wrote his bank:

"I arrived having no idea where to start in to make the connections I required. The thought occurred to me that perhaps the bank, which has been very helpful to me on numerous occasions, would give me some guidance. Mr. W. proved to be of tremendous help. He introduced me to the people I should have met and saved me days, perhaps weeks, of work."

Every chartered bank works this way. Whether you walk into your neighborhood branch or one a thousand miles away, you will find the same full range of banking service—and the same readiness to help.

District News

ARMADA

Mr. and Mrs. Del Paulson and Murray visited at the home of Mr. and Mrs. Mervin Paulson of Delburne over the weekend. They also visited at Rocky Mountain House on the way home.

Mr. and Mrs. E. Howell were visitors to Lethbridge Thursday.

Mr. and Mrs. C. Tuttle were weekend guests at the home of the latter's sister and brother-in-law, Mr. and Mrs. G. Stewart of Champion.

Paul Zbonka was a Calgary visitor over the weekend.

Mr. and Mrs. Art Marks, and family spent Mother's Day at the home of Mr. and Mrs. E. A. Anderson of Milo.

Mr. and Mrs. Larry Hagg and family of Enchant visited in the Armada district Sunday. Larry participated in some fishing at Lake McGregor while here.

Mrs. W. Marks, Miss Doreen Marks and Miss Jeanette Kunkel spent the weekend in Vulcan.

Jack Breeze of Collinsville, Ill., who has been visiting for the past few weeks at the W. Brotherhood home had the misfortune of breaking his leg when he slipped and fell from a step. He was immediately rushed to Calgary where he will be a patient in the hospital for a couple of weeks. His many friends of the district wish him a speedy recovery.

Mr. and Mrs. S. Henrickson and Stanley motored to Calgary Sunday. While in Calgary they took Maurice, who is a sanatorium patient, for a two-hour drive.

Most farmers welcomed the rain showers Tuesday, Wednesday

and Thursday as the top soil was getting very dry. Crops are starting to come up nicely and the trees are all out in leaf.

KIRKCALDY

Mr. and Mrs. Laverne Gale and Terry of Field, B.C. are visiting at the home of Mrs. Gale's brother and sister-in-law, Mr. and Mrs. Joe Main.

Mr. and Mrs. Lloyd Clark and boys spent the weekend at the homes of Mr. and Mrs. P. M. Clark and Mr. and Mrs. Ivan Hagg.

Mr. and Mrs. William Munro motored to Calgary on Saturday to spend Mother's Day with their daughter, Marian.

Mrs. Thomas of St. Louis, Miss. arrived on Friday to visit at the Spencer Lewis home. The former is a cousin of Mr. Lewis' and they haven't seen one another for 63 years.

Friends of Miss Janet Ware were pleased to hear that she was able to return home on Friday.

Mr. and Mrs. W. G. Brinton and family spent the weekend in Calgary. Harry Hanson, who has been visiting here returned to the city with them for the weekend.

Mrs. William Hummel was a Lethbridge visitor on Monday.

Valerie Newsome entertained several friends on Saturday on the occasion of her 9th birthday.

Don Mallory went to Calgary on Monday.

Mr. and Mrs. Bob Cutler and family spent Sunday at Barons, at the home of Mrs. Cutler's parents.

Mrs. A. W. Maisey paid her official visit to Baron's Women's Institute on Thursday night.

Red Cross Report

Nearly 6,000 victims of 792 disasters, both great and small, which struck Canadians in 1951, were assisted, by Canadian Red Cross disaster services, Major-General C. Churchill Mann, national chairman, reported at the annual three-day meeting of the Society's Central Council, in Toronto.

His report listed 20 major disasters, including fires and flood, in six provinces.

"All divisions report progress in the development of their organizations for disaster preparedness and relief and considerable progress was achieved during 1951 in the development of the program on a national basis," said General Mann.

He warned delegates, however, that the Society had not yet reached its national objective of 100 per cent preparedness.

Two basic forms for registration and information purposes in civil defence are being distributed to Red Cross divisions as these functions will be part of Red Cross responsibility in this field.

C. La Ferie, chairman of national transportation, reported that \$277,978 worth of supplies had been shipped overseas by Red Cross in the past year.

During 1951, nearly 90,000 Canadians were served by Red Cross Outpost Hospital and Nursing Station staffs. Dr. L. O. Bradley, chairman of the Outpost advisory committee reported.

This represented an increase over the previous year, partly accounted for, Dr. Bradley thought, by the fact that Red Cross was increasing its Nursing Station service and turning some of its larger hospitals over to communities. Nursing Station type of service allows the staff greater freedom for service in homes.

Ten thousand more pupils were enrolled in 3,789 Swimming and Water Safety classes during 1951 than in the previous year, delegates heard, making a total of 58,000 enrolled with 30,000 qualified. Forty eight instructor schools were held and 715 new instructors qualified.

Two hundred and eighty-four registered nurses were qualified as Red Cross First Aid instructors during 1951, the first groups to be trained under 20 special short courses approved by the Canadian Nursing Association. Two thousand people were qualified as standard first-aiders in more than 150 regular courses conducted last year.

Attendants in 136 Red Cross Highway First Aid posts in five provinces assisted in 500 accidents in which 640 people were injured. The National Enquiry bureau, which traces missing persons, reunited more than 500 persons with relatives and friends in 1951.

Precipitation Report

Rainfall from April 1st to date has been exceedingly low over the three prairie provinces. Alberta and Saskatchewan, however, fortunately had much better than average reserve moisture with Manitoba about average.

Combining these total reserves of moisture and adding the rains

three prairie provinces of 120 per cent that have occurred from April 1st to May 5 still gives us an all around moisture condition for the cent of normal compared with 90 percent at this time a year ago. The total figure for Alberta now being 122 percent of normal, for

Saskatchewan 125 percent of normal and for Manitoba 89 percent of normal.

Crops now being sown on stubble land will have available precipitation which occurred last fall during the months of August, September and October. Crops now being sown on summerfallow will have this moisture plus the additional moisture that was stored in the summerfallow land during the summer of 1951 and in addition that moisture which was preserved in the summerfallow land during the fall months of 1950. (Snow which falls between November 1st and April 1st has not been found to be of much value as far as the production of crops is concerned.)

This growing season on April 1st started with a reserve moisture for the three prairie provinces of 136 percent of normal compared with 90 percent last year. The rains that have occurred this year from April 1st to May 5 have averaged only 48 percent of normal, compared with 99 percent for the same period last year. Alberta rainfall from April 1st to May 5 has been 30 percent of normal, Saskatchewan 60 percent of normal and Manitoba 9 percent of normal.

All this means that in spite of the low April rainfall the outlook is still good for an average yield next fall provided average rains occur from this date May 5 to July 31.

**MARVELUBE
GREASE "O" and "1"**

DELIVERED RIGHT TO YOUR FARM

Once again here's an opportunity to save money on high-grade grease guns. Choose whichever you please at a special price with every 25th lb. of Marvelube grease. A good grease gun not only saves time but you can't get good lubrication unless you have the proper gun to force out old grease and dirt out of your bearings. Neither can you get good lubrication unless you use a high-quality grease.

Marvelube Greases "O" and "1" Stay with the job! Marvelube "O" and "1" are high-quality greases that stay with the job, reduce friction and draft, protect moving parts from wear and add to the life of equipment. Marvelube Grease "O" is ideal for cold weather use. Marvelube Grease "1" is a popular heavy-duty grease for warmer days. Choose the one best suited to your job.

**CONVERTIBLE
EJECTOR
WATER SYSTEM**

A REVOLUTIONARY NEW
TYPE SYSTEM -
EASILY CHANGED
FROM SHALLOW
TO DEEP WELL

This simple kit is all
you need for Deep
Well Conversion.

A simple conversion kit enables you
to change from shallow to deep well
service with one pump! It is easily
installed inside the pump.

Here's how it works. You install the
Convertible Ejector as a shallow well
system. When you need more water,
or when falling water levels compel
you to go to greater depths, all you do
is install the low-cost conversion parts
to change to deep well duty. You are
saved the expense of an entirely new
water system. Available in 1/4, 1/2, 3/4,
1 or 1 1/2 hp. models that can be in-
stalled over the well or away from it.

The Empty Canadian West Must Be Peopled

(R. J. Needham in Toronto Globe and Mail. Mr. Needham was formerly editor on the Calgary Herald)

Sixty years have elapsed since Edward Blake lamented "an empty West, empty still." Fifty years have elapsed since Sir Clifford Sifton said in an opening speech at the Winnipeg Exhibition: "We look in the near future to see upon these Western plains a great population; great not only in numbers, but in other respects, not depressed by poverty, but a population characterized in its social conditions by a high degree of comfort and prosperity."

Yet the West is still empty. It still lacks a great population. And if it is not, at the moment, depressed by poverty, it certainly found itself in that condition a few short years ago, and could all too easily find itself in that condition again. In short, the West—meaning the Prairie Provinces—has not fulfilled the high hopes expressed for it at the turn of the century. Indeed, the results of the 1951 census suggest that after a scant half-century of growth, the West has entered a period of decline.

It is true that the population of Alberta increased 17.6 per cent during the last ten years, and of Manitoba 5.8 per cent. It is true that these increases cancel out Saskatchewan's 7.5 per cent loss, to bring an overall population increase, from 1941 to 1951, of 4.7 per cent. But during that ten year period, British Columbia increased 41 per cent; Ontario 20.5 per cent; and Quebec 20.4 per cent. Even the Maritime provinces saw a much greater population increase than the West, the four of them averaging 9.8 per cent.

The plain fact is that fifty years after the opening of the West, it still has nowhere near enough population to sustain it. A total area of 753,497 square miles is inhabited by a total population of 2,537,519 people. This is the root cause of all the West's big problems that it is trying to occupy an area half the size of India with a population half the size of Switzerland's.

Apathy Among People

If population is the west's greatest need, then the loss of population is its greatest catastrophe. It would be heartening to be able to report that the West realizes this; that the general subject of population was being as fiercely debated, in that part of Canada as the general subject of tariffs or freight rates or corporation profits. But that is not the case.

While Western newspapers have taken a serious view of the figures stated above, the general attitude of their readers to them is apathetic. No missionary, no movement, no farmers' organization and certainly no political party is exhorting Westerners to face and resolve this problem. The plain truth is that Western people in general are not interested in it.

One reason for this is that while the loss of population may be plainly seen in the country, with its ghost towns and abandoned farm houses, it may not be seen so plainly in the cities.

But insofar as there has been an overall exodus from the prairies, these cities have sustained an overall loss in their basic market for goods and services, that is, the home market.

In Quest of Opportunity

Another reason why the West takes a casual attitude toward its population losses is that Westerners have always been a mobile people. As their grandfathers migrated to Alberta, Saskatchewan and Manitoba, so they in turn migrate to British Columbia, Ontario and the United States. They are looking for opportunity, and that is reasonable enough. But few Westerners ask themselves: Why isn't there more opportunity here at home? And few of those who do, understand that the one great reason for lack of opportunity is the lack of population.

The industrial centres of Eastern Canada and the United States, which have attracted so many thousands of Westerners during the last ten years, did not come into existence by accident—or indeed, by design. They grew up naturally to serve a great population, the kind of population Sifton foresaw for the West, the kind of population the West must have for stability, opportunity and lasting prosperity.

Letter To The Editor

The Vulcan Advocate,
Dear Editor:

The Red Cross 1952 appeal has already reached more than 80 per cent of its objective—a decided increase over the same period last year—and we have every hope of reaching our goal by the end of the year.

You will have had a great deal to do with writing this happy ending and I want to express the gratitude of the Society for your ever-generous cooperation and assistance to us.

Without the support of the weekly press, not only at campaign time but the year 'round,

SMOKE'S HAZARD

Many people enjoy a last smoke last smoke. The burning end of a cigarette or cigar falling into the bed while they read themselves to sleep. If the smoker dozes and the cigarette falls onto bedclothes cause a flame when it burns flammable material.

Once again I have the pleasure of saying "Thanks!"
Yours very sincerely,
H. H. Rimmer,
Chairman,
National Publicity Committee.

FORD for '52

The Customline Fordor Sedan shown is one model in two lines of completely new 1952 Ford passenger cars. The new Ford Coachcraft bodies increase the driver's field of vision both front and rear with a new one-piece curved windshield, a one-piece rear window extending over

the full width of the car, and narrower, repositioned front pillars. A novel new feature is the relocation of the gasoline filler pipe behind the rear license plate and below the rear compartment floor, adding more useable luggage space and making the pipe more easily accessible from either side of the car.

Carmanagay

The Town Council is planning a work day for May 28 to clean up the Cemetery. All those interested kindly be on hand that day and help a good cause.

Mrs. B. Finley of Picture Butte held a demonstration of Stanley Products at the home of Mrs. Mike Batycky on Friday evening. Miss Dorothy Thompson of Calgary spent Sunday and Monday with her parents. Mr. and Mrs. Syd Thompson.

Mr. and Mrs. Jack Driver of McLeod were guests at the home of Mr. and Mrs. Roy Church on Friday.

Mr. and Mrs. T. Ohler accompanied by Mrs. A. Roemmele motored to Lethbridge on Tuesday.

Mrs. Roy Church entertained at a Stanley Party on Monday afternoon, when 14 ladies were present for a demonstration of the Stanley Products by Mrs. Finley of Picture Butte. A delicious tea was enjoyed at the close.

Leslie Hubka, young son of Mr. and Mrs. Bob Hubka, has been a patient in the local hospital, with pneumonia.

Mrs. Albert Teskey and Bill Teskey of Edmonton were guests at the home of Mr. Ray Teskey for several days while attending their father's funeral.

Visitors to Lethbridge on Thursday included Mr. and Mrs. E. Laczo Sr., Mr. and Mrs. Ed Stettner and Larry, Mr. and Mrs. Richard Fraser, Mrs. H. A. Frank, Mr. and Mrs. J. Hauser, Mrs. L. Milliken.

Mr. and Mrs. Dale Clark, Mr. and Mrs. E. Laczo Jr., Mrs. B. Robertson, Mr. and Mrs. Rob Clark.

Mr. and Mrs. Ted Ronney and family were visitors in Nobleford on Sunday.

Mr. and Mrs. Norgard and family of Peacock Siding spent Sunday west of Claresholm on a fishing trip and obtained a good catch.

Miss Liela Dick was one of the graduates of the Galt 1952 Nursing Class on May 14. Her mother, Mrs. Amelia Dick and Mrs. Viola Anderson were guests at the afternoon tea of the graduating class. Mr. and Mrs. Victor Schneider, Mrs. Aitken, Mrs. A. Dick and family, Mr. and Mrs. Hakon Anderson and family were guests at the graduation and reception.

Mr. and Mrs. Mike Batycky attended the Shriner's Convention in Lethbridge last week.

Mr. and Mrs. Wm. McLeod of Barons were Sunday guests at the Clarence Anderson and Axel Wennes homes.

Mr. and Mrs. Earl Smith and sons and Mr. and Mrs. Dick Davies, motored to Barnwell on Sunday and were guests at the home of Mr. and Mrs. D. Johnson.

The boys' and girls' softball teams of the Carmanagay School motored to Milo last Friday to play their first games of the season. The Carmanagay boys won their game, but the girls did not play as Milo had no girls team.

Barrhill school had an Open House on May 13, at which the students displayed their notebooks, handiwork and other work done during the school term. Mr. and Mrs. Salmon, Mrs. Glover, Mrs. Miller and Mrs. Jennie McAlpine acted as judges for the award pins.

Many items of handicraft were also displayed by the adults of the community. Later an enjoyable tea was served by Mrs. Aitken and her helpers.

Mrs. Mary Ross spent several days visiting with her mother, Mrs. Peter Hauser of Lethbridge.

Mrs. Clara Beaurle of Calgary has been a guest at the home of her mother, Mrs. Mina Greene.

Mr. and Mrs. Ralph Berlin of Claresholm were visitors in town, while attending the funeral of the late Floyd Teskey.

Mr. and Mrs. Lars Brandvold of Calgary were visitors at the home of Mrs. Mina Greene.

Mrs. H. S. Parker left for Penitence, B. C. on Sunday where she will visit for a short while.

The Barrhill softball teams played their first game of the season with Iron Springs. The girls winning with a score of 38-20 and the boys losing with a score of 13-9.

On Mother's Day, May 10, the Bowville Pentecostal Sunday school presented all mothers present with a corsage of tulips and roses. The Sunday School group then entertained the mothers with a program.

Mr. and Mrs. Norris of Warner were guests at the home of Mr. and Mrs. Vilas Teskey while attending the funeral of the latter's uncle, Mr. Floyd Teskey.

Mr. and Mrs. Paul Moreland of Warner attended the funeral of the late Floyd Teskey on Thursday.

Mr. and Mrs. Herman Stettner and family of Namaka were week end guests at the homes of Dalton McDougall and Ed Stettner.

Mrs. A. Lund left for Calgary on Saturday where she will visit at the home of Mr. and Mrs. Gus Greene.

Home and School

The May meeting for the Home and School was well attended.

The scholarship committee gave a report and then a discussion was held.

Gifts for the two 1952 graduates were decided upon, and Mrs. K. R. Miller instructed to purchase them.

Mrs. K. R. Miller gave a paper on the new English course, then a discussion on the new curriculum pertaining to English was held.

The Altar Society

The May meeting of the Altar Society was held at the home of Mrs. E. Laczo Sr. with six members and Father LeBel present.

President Mrs. West opened the meeting with a prayer. Minutes of the last meeting were read and approved.

Mrs. Letal had received the artificial flowers for the Altar and stated they were beautiful.

Several bills were turned in and paid. The group plan to make a quilt, each member to complete a quilt. This will be raffled at their bazaar to be held at a later date. Mrs. Paul Plourd Jr., and Mrs. Rudolf Hubka were appointed to set on the Quilt Committee.

Plans were made for a parish picnic, to include Barons and Nobleford and to be held at Park Lake on June 1st. Each family to bring a picnic lunch.

Coffee, weiners, ice cream and soft drinks will be served free.

Mrs. Mary Crow will have the June meeting on June 10th.

Mrs. Szekely won the raffle. A busy afternoon closed with the hostess assisted by Mrs. E. Laczo Jr., serving a delicious lunch.

West Country Women's Club

Mrs. Mabel Clarke entertained the West Country Women's Club on May 7th. The roll call was answered with a verse about Mother by 12 members and one visitor. Bills were turned in from the last dance and ordered paid.

Mrs. Beulah Hubka volunteered to put cloves and cinnamon in the piano at the school to protect it from mice and moths.

During the meeting a phone call was received from the North Priscilla Club inviting them to a party on May 21, the club kindly accepted the invitation.

The next regular meeting will be held at the home of Mrs. Glen McFarland on June 4th.

Mrs. J. Gower won the raffle. Mrs. Vivian McFarland entertained the club with several short stories on Mothers Day.

The afternoon closed with the hostess serving a delicious lunch.

Floyd Teskey

Many friends, neighbors and relatives of the late Floyd Teskey, more than filled the United Church on Wednesday afternoon for the funeral.

The late Mr. Teskey had been a resident of this district for 45 years.

Mr. Teskey was born in Ontario

FORD - MONARCH SALES & SERVICE PHONE 24 - VULCAN

68 years ago. After homesteading east of town, he became agent for the Terwilliger Grain Co., at Carmanagay for a number of years.

Returning to the farm he made his home there until retiring to town two years ago. He was a member of the Plainfield U.F.A. and a member of the local I.O.O.F. lodge when it was active here.

Rev. Peter Dawson conducted the service. The choir sang "Somebody We'll Understand." He is survived by three sons, Frank at Carmanagay; Albert and William at Edmonton; three brothers, Ray and Vilas at Carmanagay and Hugh of Wainwright. His wife predeceased him in 1940. Interment was in the Carmanagay cemetery with Martin Bros. in charge of arrangements.

CARD OF THANKS

The Teskey family wish to thank their many friends and neighbors for their beautiful floral tributes and for the many acts of kindness shown them during their recent bereavement.

CARD OF THANKS

I wish to thank Dr. Szekely, Mrs. Sutzo and the staff of the Carmanagay hospital for the wonderful care I received while a patient, and to express my appreciation for the kindness of friends who called and sent flowers. —Mrs. Vilas Teskey.

CHURCHILL SAVINGS

On wheat exported through the Port of Churchill, on Hudson's Bay during the 1950-51 crop year the Wheat Board received an average premium of 4.96 cents a bushel on wheat sold under the International Wheat Agreement and 3.05 cents a bushel on class 2 wheat, over the Fort William-Port Arthur price. The board made a savings of \$132,217.22 on freight and on grain exported through this port but paid \$139,560.91 in diversion premiums. This information was given in the house of commons by Rt. Hon. C. D. Howe.

NOTICE

The Law Office of J. M. Jamison will in future remain open Wednesday afternoons and will be closed Saturday afternoons.

Greater Economy - Less Wear

WHEN YOU LUBRICATE WITH

MARFAK

IT STICKS TO THE JOB— UNDER THE TOUGHEST WORKING CONDITIONS

Texaco Marfak protects bearings and wear points when the going is tough. It ensures many more safe hours of safe operation between lubrications. That's because Marfak won't pound out or squeeze out, won't wash or jar off and it seals out grit and dirt.

You'll get smoother, more dependable, more economical performance from all your farm machinery when you lubricate with Marfak—the tough chassis lubricant that stays on the job.

IT PAYS TO FARM WITH

TEXACO Petroleum PRODUCTS

READ SIGNS OF LIFE HEED

Don't Bank on Chance

Every time a motorist neglects an unsafe condition in his car he is making a deposit with death. May is the logical time to have your car thoroughly checked for defective safety features. Check brakes, tires, lights and steering mechanism. Other safety equipment which requires attention are rear and stop lights, windshield wipers, muffler, window-glass and rear view mirror. Remember... "GOOD DRIVERS DRIVE SAFE CARS"... check up and be safe!

Check the condition of your car regularly and have a Safe Balance for the rest of your life.

Be Careful - the life you save may be your own!

Champion

Hugh Michaels, District Agriculturist from Claresholm and Mr. Parkinson, of Edmonton, were at the Allan McLean farm recently with the government tree planting machine, to set out 10,000 assorted poplar, cottonwood and caragana trees.

Mr. and Mrs. Fred Clever have returned from Calgary, where they spent several days last week, in order to purchase a home. They will be taking up residence in that city shortly in a home located on 21st Ave. N.W.

Eleven members of the local chapter of the I.O.D.E. met at the home of Mrs. Philip Fath, on Tuesday evening, May 6th. The Cancer Fund Committee reported \$250.00 has been taken in to date. Mrs. Edna Warren and Mrs. Audrey Lackey served a delicious lunch. The next meeting place will be announced later.

Mr. and Mrs. Gordon Stewart, Jr., are the proud parents of a baby girl, born in the Carmangay Hospital on Wednesday, May 14. Mrs. Lloyd Schumacher and small daughter, Bonnie Anne, are in Calgary, where the little girl is receiving medical treatment.

Several local members of the Fish and Game Association were in Staveland Wednesday evening to attend a meeting at which W. B. MacDonald was guest speaker. It was decided to hold a picnic for members and their families in June.

Mr. and Mrs. Bill Wolfe were Lethbridge visitors on Friday of last week.

One of the librarians of the Champion Public Library attended a class in book-mending in Staveland on Wednesday evening. She reported that the work is very interesting. When suitable accommodation is available in Champion, all those interested in this work will be welcome to take part.

At the regular monthly meeting of the Champion Home and School on Tuesday evening, May 13, the plans for the Graduation Banquet and Dance were laid. The event will take place in the Community Hall on June 6th. At this same meeting a picnic for pupils and parents was discussed. This picnic is to be held on June 12th at Park Lake.

Mr. and Mrs. Gilchrist of Calgary spent the weekend at the home of their son-in-law and daughter, Mr. and Mrs. Clayton Sletto. Mrs. Albert Orcutt spent several days last week in Calgary, visiting her sister, Mrs. Arthur Williams. Mrs. Williams left for Rochester, Minn., this week where she will receive medical treatment at Mayo Brothers Clinic.

LaVerne Seitz of Medicine Hat is a visitor at the home of Mr. and Mrs. Henry Lebsack.

Mr. and Mrs. Henry Lebsack had as dinner guests Sunday, Mr. and Mrs. Stewart Nichols and family, Mr. and Mrs. John Seitz, of Medicine Hat, Rev. Roth, of Vulcan, Rev. Magsig of Medicine Hat, and Mr. Jesse of Ensign.

Mr. and Mrs. Ken Bloxham and family visited at the homes of Mr. and Mrs. Ken Robinson and Mr. and Mrs. Jack Taylor in Okotoks one day last week.

The May meeting of the Felicity Club was held at the home of Mrs. Elsie Krasman with 14 members and five visitors present. A picnic was discussed but tabled for a later date. After a short business discussion the meeting was adjourned. Mrs. Ruth Christensen held the entertainment section. Mrs. Barbara McLean assisted the hostess in serving a delicious lunch. The next meeting will be held at Mrs. Ruth Christensen's on June 4th.

Mr. and Mrs. Adam Schmidt accompanied by Mr. and Mrs. A. Rupp were Calgary visitors on Tuesday. The children of the L.D.S. Primary entertained their Mothers Thursday, May 15, with a program of songs, recitations, plays and Rhythm Band Numbers. The Mothers then visited each class following which the graduating class served lunch to all.

A number of the local baseball fans followed the Champion baseball team to Staveland Sunday, May 18. The local team beat the Staveland club with a score of 11-10. Mervin Smith pitched to S. Pasoli. For Staveland the battery was Freddie McGinnis to Yorgason.

Rev. and Mrs. Dawson left Calgary by T.C.A. Monday morning for North Bay, Ont., to attend the wedding of their oldest son, Earl, and Rev. Dawson will perform the marriage rites.

Officers and teachers of the Champion L.D.S. Sunday School attended the Convention held in Raymond, Sunday, May 18. General Superintendent G. R. Hill accompanied by his wife, Mrs. Elizabeth McKay Hill were in attendance from Salt Lake City.

Mr. and Mrs. Henry Hartung spent several days in Calgary last week.

Jack Sanderson had the misfortune to fracture his foot, when the horse he was riding fell on him. Friends of Mrs. David Rupp will

be sorry to hear that she is ill in the General Hospital.

Rev. Friesen conducted the service at the Free Evangelical Church, Sunday evening, May 18. Rev. and Mrs. Friesen and three children will reside in the apartment at the church. Before coming to Champion, Rev. Friesen lived in Okotoks.

Miss Lita Bergemeister was a weekend visitor in Calgary.

Miss Lorraine Fritzler of Calgary was a weekend visitor at the home of her parents, Mr. and Mrs. Jake Fritzler.

Road Hypnosis Has Death Toll

An article from Kiwanis Magazine takes up the question of "high way hypnosis" as a cause of accidents. The driver is going at safe speed watching the white line; the car radio plays subdued music, the engine is purring amiably; the dashboard light is subdued. All these things combine to lull the driver into a state of hypnotism. He is not asleep but his alertness has died down. The stimuli used to create hypnotism normally are relaxation, eye fixation and monotonous repetition of sound—just what the lone driver is exposed to.

In lay language, if the driver is tired and the road is smooth—if the driver relaxes and barely moves—if his eyes are fixed on the white line ahead and his mind is distracted by the soft music of the car radio, he begins to lose some of his "thinking ability" after approximately ten minutes. In thirty minutes he may lose fifty to eighty per cent of his conscious awareness. And he has, of course, become correspondingly unaware of his own condition. Minutes more, he sees two car lights approaching—and drives between them.

How might he have broken the spell. Ned Dearborn, president of the National Safety Council, suggests the driver might have turned the windshield wipers on. That would provide a temporary distraction. Better, he could stop ten minutes for coffee. Better still, he could stop twenty minutes for a nap. But he won't.

It's because the victim doesn't know when he's being hypnotized. He'll tune the radio to soft music, backgrounded by the purr of the high-powered engine. He'll dim the light on the dashboard and fix his eyes on the long white line leading him down the highway ahead, and minutes later he'll be very dead.

Canada is one of the few countries in the world which has standard gauge railroads right across the country.

The human brain is a wonderful thing. It starts working the moment you are born and never stops until you stand up to speak in public.

A Favorite Recipe—

Contributed by Mrs. Emily Fraser

Jelly Roll

4 eggs
1 cup sugar
4 tbsps. cold water
1 cup sifted flour
1 tsp. baking powder
Pinch of salt
1 tsp. of flavoring (lemon or vanilla)

Beat whole eggs till thick and lemon colored. Add sugar gradually, beating all the while. Then add cold water. Beat well. Fold in flour to which baking powder and salt have been added. Cook in jelly roll pan lined with waxed paper, for 10-15 minutes, in hot oven. Invert on another piece of wax paper. Spread with favorite filling and roll.

The King of Spades in your playing card deck represents David, Lord of Israel, described as a 'man of war.'

Fur trading is not a thing of the past in Canada by any means. In 1950, in the North West Territories alone, it was a big business, worth \$2,500,000.

WEED CONTROL THAT WORKS IN ALBERTA!**Magrath Man More Than Satisfied With Results**

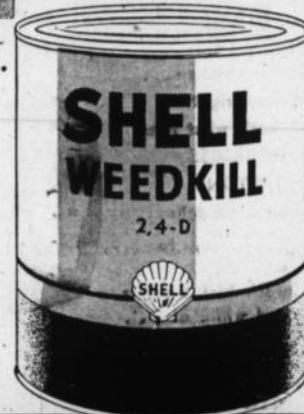

Mr. George Magrath, Magrath, says, "I treated 400 acres of spring wheat with SHELL WEEDKILL Ester 2,4-D and am more than satisfied with the results. The yield was at least 6 bushels per acre better than the strips that were not sprayed. The lack of weeds made harvesting operations much simpler and of course less damage to the elevator. I would not hesitate in recommending SHELL WEEDKILL to anyone."

You'll get results from Shell Weedkill 2,4-D used in Cockshutt low volume sprayers. You get positive weed control resulting in increased yields as high as twenty bushels an acre!

Shell Weedkill 2,4-D—Ester or Amine—is available now at your local Cockshutt Dealer. Talk over your weed problems with him. He has the latest information on the best usage and dosage for your crop requirements.

See your Cockshutt Dealer about Shell Weedkill today! He has it in one and five gallon cans.

District News

MAJORVILLE

Mr. and Mrs. Bob Scott and family and Mr. and Mrs. Ray Wellman visited with the Gaily family at Bow City last Sunday.

Mrs. G. Heather and Mrs. A. Heather were visitors to Scandia on Tuesday.

Ray Kiemle, who has spent the last few years in the North country, has returned home to help his dad (Geo. Kiemle) with the farming operations.

Bob Plentice, who has been stationed with the R.C.T.F. at London, Ont., has arrived home for a 30-day leave.

The Cancer Fund drive under the auspices of the F.W.U.A. has been quite successful.

Dorothy Winch has been chosen as delegate to the Farm Young Peoples' week in Edmonton, sponsored by the F.W.U.A.

At the F.W.U.A. meeting held at Mrs. A. Oster's a fashion show was planned for the next meeting to be held on June 12 at the home of Mrs. C. Umschied.

Bob Knight, foreman at the L. K. ranch, had the misfortune to fall from the water tank, injuring his back. He is at present a patient in Bassano hospital.

Calgary Power survey crews arrived in the district this week to stake out the power lines for the East Milo Rural Electrification Association.

ALSTON

Mrs. Curly Wood of Calgary has been helping her parents, Mr. and Mrs. Roger Hubbard on the farm for the past three weeks.

Miss Theresa Beingsner of High River formerly of Alx was a recent visitor at the homes of Mr. and Mrs. Sam Beingsner and Mr. and Mrs. Edwin Beingsner.

Friends of Mrs. C. Beaubier and Mr. Frank Bozarth who have been patients in the Vulcan Municipal Hospital for several weeks wish them a speedy recovery.

Mr. and Mrs. Ray Flitton and daughter Linda were Calgary visitors on Wednesday where Linda took part in a rehearsal for the Tip Top Revue.

Mrs. Frank Henry of Calgary was a visitor at the home of her stepmother, Mrs. Frank Bozarth for three days last week. While here she visited her father, F. Bozarth in the Vulcan Hospital.

Mr. and Mrs. Edwin Beingsner accompanied by Mr. and Mrs. K. Drummond were fishing at the McGregor lake on Sunday where they caught 16 pike.

Misses Marjorie and Evelyn Reath of Staveland and Champion respectively were weekend guests at the home of their parents, Mr. and Mrs. George Reath.

Hartley McDonald was a Calgary visitor over the weekend.

Miss Shirley Hubbard of Vulcan was a Sunday guest at the home of her parents, Mr. and Mrs. Roger Hubbard.

Bob and Grace Williams and Jack Hutton were accompanied by several of their friends from Parkland on a picnic in the hills west of Nanton on Sunday.

Jim Reath and Don Sommers were also fishing at the McGregor Lake on Sunday and came home with five fish.

Calgary business visitors on Thursday were Mr. and Mrs. K. Drummond, Mr. and Mrs. Mike Beingsner, Bob Williams, Stanley Beingsner, Jim and Eileen Strauss.

MOSSLEIGH

The Mossleigh Ladies Community Club re-organized on April 23. The new executive are Mrs. H. Leslie Jr., President; Mrs. Harold vice-president; Mrs. D. Randle Secretary; Mrs. C. Green Treasurer; Mrs. J. Leslie lunch convener. Their objective is a New Hall. The next meeting will be held on Wednesday, June 4.

The Mossleigh Go-Getters held a very successful achievement program on May 7. A large crowd attended and the girls had their work well displayed and had a very entertaining program, and served a very lovely lunch afterwards. The girls don't know as yet who the winner is that will take the trip to Olds.

A large crowd attended the Mother's Day service in the church when five babies Sandra Christie, Kay Hagedorn, Elizabeth Laing, Ann Watson and Allan Barr and three teenagers were baptized. Mr. and Mrs. Pete Johnson (nee Hazel Kilpatrick) are being congratulated on the birth of a son in Calgary on May 16.

The Blind Creek-Mossleigh W.A. are serving lunch at Ballard Bros. sale on June 3.

The Mossleigh Home and school association held their regular monthly meeting on May 14. A small attendance was present due to muddy roads and spring work in full swing. The association passed two petitions—one that shop and home economics be taught in Mossleigh this coming term—two, that more and better teacherages

be established here.

Mrs. Lindberg gave a very interesting report on the conference of the Home and School in Edmonton. Lunch was served by the teachers.

The high school students will be treated to a banquet on June 6, followed by a dance for the public in the hall.

The first meeting of the Mossleigh Go-Getters Garden Club was held May 12. The new executive is Joan Leslie, president. Ina Lee Harold, secretary-treasurer; Gail Gillanders, vice-president; Mavis Scott, lunch convener; Edna Brown, social convener; Olive Hurl, press reporter. It was decided that the Club beautify the church grounds by planting trees and flowers around the church.

Members are invited to attend a Rally to be held May 31 at High River. Shrubs and seeds to be planted have been received.

Members are very sorry to hear one of the club members, Mavis Scott, was hospitalized with a broken foot. The next meeting will be held June 2.

Blind Creek-Mossleigh W.A.

The May meeting of the Blind Creek-Mossleigh W.A. was held on May 8 at the home of Mrs. Wm. Campbell with a fair attendance.

Mrs. Grainger, Mrs. Jolly and Mrs. Mace volunteered to act as visiting committee. They are to visit new comers in the community and visit the sick members.

Miss P. Mewha D.H.E. made arrangements to hold sewing classes in Mossleigh on May 28 and 29 afternoons and evenings of both days. Anybody wishing to attend are cordially invited.

June meeting of the W.A. will be held at the home of Mrs. A. Malinburg and roll call will be Garden and Household hints.

Mrs. Hagedorn auctioned off the plants etc., and netted \$16.15. The proceeds are to go towards the Sunshine Fund.

Co-hostesses were Mrs. Geo. Christie, Mrs. H. Leslie, Jr., and Mrs. T. Barr.

ARROWWOOD

The Arrowwood Booster Club held their regular meeting May 14 at the home of Mrs. J. Jacobson. They decided to discontinue the circulating library and next fall resume with a more extensive library. Also the plans were completed for the Community Auction to be held on May 28 at 11 a.m. The ladies will serve lunch and also have a white elephant table.

A big community auction will be held in the Arrowwood curling rink on Wednesday, May 28, commencing at 11 a.m. Machinery, livestock and household articles will be sold and there will also be a "white elephant" sale. Anyone wishing to sell anything is asked to bring it along. Lunch will be served.

The United Church building and finance committee held a meeting at the home of Mr. and Mrs. R. F. Williams. At this meeting they discussed their building plan and are expecting to get underway on the basement this week.

Mrs. Clark was down spending a few days with her sister, Mrs. J. Mackie at the home of Mrs. Phillips.

There were three car loads of the F.W.U.A. Ladies and families made a trip to Brooks on Saturday for a Blossom Time picnic. Mr. Hargreaves gave them a talk about the trees and plants.

BERRYWATER

Friends of Allan Smith will be interested to learn that he was graduated from the Alberta Bible College in Calgary Monday with the degree of Bachelor of Theology. Sunday night the graduating class had charge of the services at Tuxedo Park church, with Allan delivering the sermon.

Mr. and Mrs. D. B. Smith and Russel attended the graduation exercises at which their son and brother received his degree on Monday, and also attended the Tuxedo Park church services on Sunday. Also present were Mr. and Mrs. Doug Smith and Mr. and Mrs. Stan Wickstrom.

Calgary visitors last week were Mr. and Mrs. Joe Gerding and family.

Willis McIntyre and Leslie Richardson were business visitors to Calgary the first of the week.

Sunday visitors at the home of Mr. and Mrs. T. Webber included H. A. Peterson and Mrs. E. Mills of Lethbridge.

Pete Hloockoff of Calgary has returned to the district to attend the harvesting operations on his farm.

Recorded rainfall in the Berrywater district last week was .54 inches according to the gauge on the D. B. Sim farm.

Mrs. Jack Doyle of Champion spent last week at the Lee Richardson home.

Ralph D. Robertson of Calgary spent the weekend at the Leslie Richardson home.

Recorded rainfall in the Berrywater district last week was .54 inches according to the gauge on the D. B. Sim farm.

Mrs. Jack Doyle of Champion spent last week at the Lee Richardson home.

Ralph D. Robertson of Calgary spent the weekend at the Leslie Richardson home.

Mrs. Jack Doyle of Champion spent last week at the Lee Richardson home.

Ralph D. Robertson of Calgary spent the weekend at the Leslie Richardson home.

EASTWAY

Burnie Newby of Calgary spent the weekend with Melvin Burgess. Elva Waugie of Calgary spent the weekend with her dad, Gus Waugie, who is working for Hank Willard.

Mr. and Mrs. Matt Copeland of Calgary spent several days last week at the R. Mitchell home.

Mr. and Mrs. Joe Sultor and Bernard attended the funeral services in Calgary May 14 for the former's sister, Mrs. Susan Wark. Mrs. Clark passed away May 12.

Mr. and Mrs. Joe Sultor and Bernard visited Mr. and Mrs. Floyd Wark of Mossleigh on Sunday.

BRANT

A farewell tea was given for Mrs. Don Pearson Friday, May 16 at the home of Mrs. F. Sellers. About thirty ladies were present. Poems were written about the guest of honor, and a story about her forthcoming trip to Red Water with each one adding a line. Lunch was then served and later Mrs. Pearson was presented with a chest of silver, for which she thanked everyone appropriately.

Calgary visitors last Thursday were Mr. and Mrs. F. Sellers, also Mr. and Mrs. Brant Parker.

Brant boys won over the Milo team 8 to 1 in a ball game played here Friday, May 12. Freddie Burley, Brant catcher, injured a finger during the game.

A party for Charlotte and Lilith Pearson was enjoyed by a number of their class mates during lunch hour Monday at Mrs. Ed Pearsons. The girls were presented with suitcases.

G. Forbes was a Calgary visitor Saturday, May 17.

ENSIGN

Mr. and Mrs. Henry Hansen were weekend end visitors in Vauxhall at the home of the latter's parents.

Mr. Coleman is at present relief agent at the C.P.R. station.

Mr. and Mrs. B. Brown were weekend visitors at the home of Mr. and Mrs. Doug Loose of Magrath.

Mr. and Mrs. C. Mote were Lethbridge visitors on Monday last.

Glen Dahl was a business visitor to Calgary this week.

Mr. and Mrs. B. Somerville, Yvonne and Lee were Calgary visitors over the weekend.

Mr. and Mrs. Freddie Geschwendt are the proud parents of a son Rickey, 6 lbs. 15 oz., born May 5, a brother for Sherry.

Mr. and Mrs. Earl Carruthers journeyed to Calgary last Sunday to visit the former's mother who is a patient in the Holy Cross hospital.

Mrs. Percy Simpson Jr. is a patient in the General hospital, Calgary, where she will undergo an operation.

Paul Somerville of Chapel Hill, North Carolina, is one of the eleven students who were chosen and initiated into the Order of the Golden Fleece in traditional rites in Memorial Hall at the University of North Carolina recently. Members of the "Fleece" are chosen for their personal integrity, outstanding service in one or more fields of student activity, scholarship and leadership.

Little Miss Susan Stewart of Champion is visiting with Randy and Eugene Carruthers.

Miss Betty Hammer was a Calgary visitor last weekend.

Mrs. Annie Hyslop recently sold her house in town to Mr. and Mrs. Henry of Arrowwood. Mr. Henry is employed by J. T. Willard & Son.

Friends of Mrs. Carrie Carruthers will regret to learn she underwent a major operation in a Calgary hospital last Friday.

Mrs. T. Moore of Vancouver, B. C. was a recent guest at the Ross McIntyre home.

Word has been received here by Mrs. J. M. Hill of the death of her sister-in-law, Mrs. Hans Hanson,

aged 73 years, at her home at Glasgow, Mont., May 14. Mr. and Mrs. Hans Hanson have visited relatives here a number of times and have many friends in the district. Mr. and Mrs. Louie Hanson of Calgary journeyed to the Montana town to attend funeral rites last Saturday.

Mrs. Margaret Gilroy of Calgary spent Sunday at the home of her brother-in-law and sister, Mr. and Mrs. Merv McIntyre.

Friends of Mrs. Raymond Fernley will be sorry to learn that she is a patient in the local hospital.

Mrs. Ed Clark of Kallispel, Mont. and Mrs. Reg. Shaw of Vancouver, B. C. were recent guests at the home of Mr. and Mrs. Bob Fitzpatrick. Later Mrs. Fitzpatrick, her guests and Charles Fitzpatrick motored to Calgary for a short visit.

Mr. and Mrs. Gordon Engen and family spent Sunday with relatives here.

Friends of Mr. A. Ferngren will regret to learn that he underwent an operation in the Holy Cross hospital recently. Mr. and Mrs. Northcott and family motored to Calgary on Sunday to visit with Mr. Ferngren and report him making satisfactory progress.

Tommie Chell of Monarch was a recent guest of Ronnie Northcott.

Friends of E. G. McPherson will be sorry to learn that he was called to Seattle Sunday, where his sister, Mrs. A. P. Glendening, had passed away. Sympathy is extended to him in his loss by his many friends.

Mr. and Mrs. Tom Wheatley and family of Calgary spent last week at the home of Mrs. Wheatley's parents, Mr. and Mrs. Clare Dunham.

Friends of Mr. E. A. Woodman will be sorry to know he is confined to the local hospital.

Miss Josephine Dobbs of Lethbridge spent Sunday with her grandmother, Mrs. Margaret Dobbs.

Mr. and Mrs. L. Lancaster and Gloria were Lethbridge visitors on Sunday.

Mrs. H. Fox and Mrs. S. Degenstein accompanied Mr. Gordon Bell to Lethbridge on Sunday, where they all visited with Mrs. Bell, who recently underwent an operation in St. Michael's hospital there. Best wishes for a speedy recovery are extended to Mrs. Bell.

Ross Clark left recently on a business trip to Iowa.

Mr. and Mrs. Lowell Granlin and Darlene were Sunday visitors to the home of Mr. and Mrs. Bill Shields at Milo.

Mr. and Mrs. George Miller of Calgary spent the weekend at the Lorne Healy home.

Friends of Mr. and Mrs. Roy McIntyre will be sorry to know that their small son, Murdo, received painful, though not serious, burns to his arm Sunday evening, when he got out of bed and fell over a hot plate his mother had been using to steam him, for a bad cold.

Mr. and Mrs. Jim Scott and Barbara and Mr. and Mrs. Art Southgate and Ken, all of Calgary were Sunday guests at the Alvin Jacobson home.

Miss Margaret Plourd of Calgary visited recently in the district enroute to Creston, B.C. where she will join her parents, and make her home.

Mr. and Mrs. John Hanna entertained at "Open House" Sunday, at their farm home, in honor of the 52nd wedding anniversary of the latter's parents, Mr. and Mrs. C. Schuler. A family dinner for 25 was served in the evening, when members of the family from Calgary, Vulcan, Champion and other points were present. During the afternoon many friends and neighbors from Vulcan and district called to wish the honored couple many more anniversaries and to congratulate them. Tea was served all callers by Mrs. Hanna.

The regular monthly meeting of the local chapter A.A.R.N. will be held in the Nurses' Residence May 27, at which time Mrs. S. Manning will give her report on the Nurses' convention held in Banff this week. There will be a conducted tour of the hospital at this meeting, commencing at 7:30 sharp.
